Accepting a Quote

Accept a quote online to generate an order or invoice.

Accepting a quote tells DanumHost you agree to the priced work or products.

Accept steps

1. Open the quote at `/account/quotes/{id}`.
2. Read terms, scope, and total carefully.
3. Click **Accept quote** and confirm.
4. Follow any redirect to pay an invoice or wait for provisioning if payment is not immediate.

After acceptance

You may receive email confirmation and see a new order or invoice linked from the dashboard. Reply on a ticket if the quote details look incorrect before accepting.
